Motor Vehicle

RE: Upcoming Improvements

The Motor Vehicle Division is excited to share with our partners more upcoming online services. The new Unified Carrier Registration-Georgia system will provide an online application to allow Georgia based intrastate motor carriers to complete their application online with the option to pay fees.

In the near future, Georgia will become a part of a nationwide system program Commercial Vehicle Information System Network (CVISN) used to exchange commercial vehicle information and improve safety more efficiently. This program refers to the collection of information systems (state and federal government agencies, motor carrier industry, etc) and communications networks that support commercial vehicle operations.

If you need any assistance, please do not hesitate to email us at commercialvehicles@dor.ga.gov or call us at 404.968.3800.

Thank you,

Georgia Department of Revenue
